## **BREXIT**

ABP is compiling a list of charges that will be payable in respect of additional services that it is anticipated will have to be carried out in respect of the range of new processes and procedures associated with Brexit. Such charges will be published in due course. In the meantime please contact the regional port management team for further details.

# LOWESTOFT 2021

Harbour or Ship Dues are payable on demand before sailing or on receipt of invoice (whichever is the earlier). Goods Dues and other trade accounts are payable on demand unless special credit facilities have been agreed.

## REGULATIONS AND CONDITIONS APPLICABLE TO VESSEL DUES AND RENT

1. Vessels entering and leaving the Port will be charged the inward or outward dues, whichever may be higher.

Gross tonnage for the purpose of this schedule means the vessel's gross tonnage ascertained in accordance with the provisions of The International Convention on Tonnage Measurement of Ships 1969, and the Annexes, which came into force on 18 July 1982, and implemented on 18 July 1994.

2. Vessel Dues cover one entry to, or commencement of use of, the Port. The initial charge for Vessel Dues includes a charge to cover the conservancy element of Port Marine Operations. This charge equates to 4/7ths of the total charge for entry. (Conservancy covers the costs of dredging, spoil disposal, hydrographic surveying, navigation marks and other statutory functions)
3. In calculating Vessel Dues and Rent, fractions of a gross tonne will be calculated as gross tonne respectively.
4. If a vessel moves from a private quay or wharf in the Port onto a berth owned by ABP, rent will be charged from the time of coming alongside that berth.
6. Additional charges may apply to the use of specific berths and facilities. Potential port users should check on the availability, suitability and potential extra charges for any berth prior to arranging a vessel visit.
