

NOTIFICATION OF HEARINGS UNDER RULE 13 OF THE INFRASTRUCTURE PLANNING (EXAMINATION PROCEDURE) RULES 2010

ASSOCIATED BRITISH PORTS (IMMINGHAM EASTERN RO-RO TERMINAL) DEVELOPMENT CONSENT ORDER

PLANNING INSPECTORATE REFERENCE NUMBER: TR030007

SECTIONS 91 AND 93 PLANNING ACT 2008

Notice is hereby given that, at the dates, times and locations set out below, the following Hearings will be held by the Examining Authority (on behalf of the Secretary of State for Transport (the "Secretary of State")) for the examination of the application made by **ASSOCIATED BRITISH PORTS ("ABP")** (Company number ZC000195) of **25 BEDFORD STREET, LONDON, WC2E 9ES** ("the Applicant") for a Development Consent Order under the Planning Act 2008 ("the Application").

The Application was received by the Secretary of State c/o the Planning Inspectorate on 10 February 2023 and was accepted for Examination on 6 March 2023. The Examining Authority was appointed on 20 March 2023 to examine the Application and the Examination commenced following the Preliminary Meeting held on 25 July 2023. Additional Hearings to be held in September are set out below.

Summary of the Project:

The Applicant, ABP, is seeking development consent for the construction and operation of a new three berth Roll-on/Roll-off ("Ro-Ro") cargo facility in the Port of Immingham, North East Lincolnshire, DN40 2LZ, known as the Immingham Eastern Ro-Ro Terminal ("IERRT"). The proposed IERRT consists of:

Marine works

- An approach jetty from the shore linked to two floating pontoons appropriately secured in position
- Two separate finger piers to provide three berths thereby enabling the vessels to berth alongside with their stern ramps resting upon two floating pontoons
- A capital dredge of the new berth pocket
- Disposal of dredged material at sea if no beneficial alternative can be identified
- Possible impact protection measures if required

Landside works

- Demolition and redevelopment of a number of existing commercial buildings within the site
- Improvement of the existing cargo storage areas, including resurfacing and provision of new pavements and associated infrastructure
- A terminal building and a small welfare building to provide appropriate facilities for terminal operational and administration staff, lorry drivers and passengers
- A small workshop with fuel station and facilities for UK Border Force
- An internal bridge within the site to cross over Robinson Road and the ABP managed transit sidings
- Related utilities and operational infrastructure
- Creation of a second entrance lane at the Port's East Gate
- Environmental enhancement

Development Consent is required for the IERRT project to the extent that the development is or forms part of a nationally significant infrastructure project (NSIP) pursuant to sections 14(1)(j) and 24(2) of the Planning Act 2008, being the proposed alteration of a harbour facility the effect of which is expected to be to increase the quantity of material the embarkation or disembarkation of which the

facilities are capable of handling by Ro-Ro ships by at least 250,000 units. It is for this reason that the project falls within the remit of the Secretary of State’s decision-making powers.

A map showing the location of the IERRT can be viewed on the National Infrastructure Planning website at the following link: https://infrastructure.planninginspectorate.gov.uk/wp-content/ipc/uploads/projects/TR030007/TR030007-000305-2.1_IERRT%20Location%20Plan.pdf

The Development Consent Order would authorise the compulsory acquisition of interests in land and rights over land, and the powers to use land permanently for the construction and operation of the IERRT. It would also authorise the application and disapplication of certain legislation.

Environmental Impact Assessment Development:

The IERRT constitutes an Environmental Impact Assessment development (“EIA Development”) for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 and accordingly the Application is accompanied by an Environmental Statement (“ES”).
