

PORT OF BARROW

NOTICE TO MARINERS NO.6 of 2021

SMITE DIVING OPERATION

NOTICE IS HEREBY GIVEN that diving operations are to be conducted on the SMITE intakes from Wednesday 17th March for Approx 2 weeks.

The works will take place within the purple box as shown on the plan below during daylight hours and will be conducted by Underwater Diving Services (UDS) from their dedicated dive barge.

Mariners should be aware the barge will be moored with a four-point anchor system and as such should give the barge a wide berth and pass at slow speed.

The barge will display the Alpha flag when divers are in the water.

UDS will monitor VHF Ch.12 throughout all diving operations and further information can be obtained from Barrow Port Radio on the same channel.

A further notice will be issued upon completion of works.
