ABP's Standard Terms and Conditions of Trade apply

1. In these Regulations "Harbour" means the Harbour of Barrow as defined in the Furness Railway and Barrow Harbour Act 1863, as "At its northern entrance, within a line drawn from the North- West shore of Sandscale Haws Farm in the County of Lancaster at High-Water Mark to High- Water Mark on the North-West end of Walney Island and at the southern entrance within a line drawn from Westfield Point on the said Coast of the County of Lancaster through the centre of Sheep Island in a straight line to the Shore of the Island of Walney, wherever the same Harbour is covered with water at a Fourteen Feet tide, as shown on the Gauge at Barrow".
"Docks" means ABP's Ramsden Dock Basin, Ramsden Dock, Anchor Line Basin, Buccleuch Dock, Devonshire Dock and Walney Channel Berths.
"Docking" and "Undocking" means respectively passage inwards and outwards through the gates of an enclosed dock, or mooring and unmooring at a quay, pier or jetty (except the Deep Water Berth in Walney Channel) not inside the Docks.
"Ship in Ballast" means a cargo vessel not carrying cargo for the time being.
2. Harbour Dues (Table 1, Part 1, Col.1) shall be payable by vessels entering or commencing to use the Harbour, but not mooring or unmooring at a quay, pier or jetty within the Harbour, followed by one departure from the Harbour.
3. Harbour Dues (Table 1, Part 1, Col.1) shall be payable by vessels entering or commencing to use the Harbour and mooring or unmooring at the Deep Water Berth followed by one departure from the Harbour. Such vessels shall pay in addition to the Harbour Dues the sum of £40,372.48 per day or part thereof for the use of the Deep Water Berth. Crew Transfer Vessels operating out of Barrow and using the Deep Water Berth Pontoon are excluded from this charge and, typically, are charged at the Class 8 rate (Table 1, Part 3).
4. Harbour Dues (inclusive of Dock Dues) (Table 1, Part 1, Col.2) shall be payable by vessels entering or commencing to use the Harbour, including one docking and

undocking followed by one departure from the Harbour. Vessels discharging a cargo and subsequently loading a cargo will be liable for Harbour Dues (inc. of Dock Dues) inwards and outwards at the appropriate rate.

5. Ships will be charged the inward or outward dues, whichever may be the higher, except that a ship which arrives or departs in ballast, or in a light condition, shall be assessed on the cargo carrying voyage.
6. Ships trading inwards or outwards shall be liable to pay dues in respect of the most distant of all the ports or places from or to which they shall have traded or shall trade.
7. Ships using the quays, piers or jetties (including the Deep Water Berth) not inside the Docks, and also entering the Docks (except as provided for in Regulation 8) shall be liable to the dues shown in Table 1, Part 1, Col.2, plus 75%, which shall include the second docking and undocking.
8. Ships using the quays, piers and jetties (including the Deep Water Berth) not inside the Docks and also entering the Docks only for repair or to take on board stores and/or bunkers and for no other purpose shall be liable to the dues shown in Table 1, Part 1, Col.2, plus 50% which shall include the second docking and undocking.
9. Ships which make a second or any subsequent docking or undocking on the same voyage and within the free period stated (Table 1, Part 1, Col.4) in distress or for repair only, will be charged in respect of the second or any subsequent docking or undocking, 25% of the dues paid in respect of the first docking or undocking.
10. Space occupied by cargo carried on deck or in any space not included in the ship's gross tonnage will be added to the gross tonnage.
11. Charges on vessels shall, except to the extent ABP declare otherwise, be related to such tonnage as is measured in accordance with the International Convention on Tonnage Measurement of Ships 1969 and which is stated on the International tonnage Certificate (1969).

In the case of vessels not issued with an International Tonnage Certificate, charges will be related to such tonnage as is calculated in accordance with the following formula:-

$$GTp = Ve \times a$$

in which GTp, Ve and a are defined as follows:

i)	GTp	=	Calculated Gross tonnage
ii)	Ve	=	L x B x H where
	*L	=	Length in metres according to International Load Line Certificate
	*B	=	Moulded breadth in metres
	*H	=	Height from the bottom to the uppermost complete deck (upper deck) in metres.
iii)	a	=	as derived from the following table based on Ve above, interpolating as necessary to determine 'a' from the actual Ve value.

Ve	a
up to 400	0.58
1000	0.43
5000	0.35
10,000	0.34
25,000	0.33
50,000	0.32
100,000	0.31
150,000	0.30
200,000	0.29
250,000	0.28

iv) $NTp = \text{Calculated Net tonnage which is } 0.6 \times GTp$

* As specified in the ships documents or Lloyds Register of Ships

12. In accordance with the European Council Regulations (EC) No. 2978/94, oil tankers equipped with segregated ballast tanks will receive a reduction on the gross tonnage related charges in this tariff. To claim this reduction, the vessel must be able to produce an International Tonnage Certificate (1969) showing under "Remarks" that the vessel is equipped with segregated ballast tanks. Vessels will be charged on the basis of the GT at the appropriate rate per GT less 17%.
13. In calculating dues on ships, fractions of a gross ton, or of a week will be reckoned as a gross ton or a week respectively with a minimum charge as for 100 tons.
14. In calculating the rent both the day of entry and the day of departure will be included.
15. The foregoing Regulations and Conditions other than Nos.1, 12 and 13 thereof shall not apply to vessels to which Part II of Table 1 applies.
16. Vessels to which Part II of Table 1 applies using the Deep Water Berth shall pay, in addition to any dues set out therein, the sum of £40,372.48 per day (or part) for the use of the Deep Water Berth.
17. Vessels discharging a cargo and subsequently reloading a cargo will be liable for ships dues inwards and outwards at the appropriate rates.
18. A vessel detained within Port Limits by an empowered authority (including by Port State Control (MCA), Vessel Classification Society or Flag State, Divisional Harbour Master, Border Force, Police or Admiralty Marshall), shall be required to pay a charge of £0.61 per Gross Tonne per calendar day, from day of detention until day of release inclusive, in addition to the normal charges to the vessel. For the avoidance of doubt a vessel detained within the Port Limits beyond its scheduled departure time will be deemed to be conducting a separate 'lay-by' operation and will attract additional commercial charges as advised by ABP's Commercial Department.
19. Dangerously weighted heaving lines – ABP reserves the right to charge £1,000 where ships are found to use a dangerously weighted heaving line/s.
