# AYR & TROON 2023

## SCHEDULE OF CHARGES OPERATIVE FROM 1 JANUARY 2023

### Charges payable on demand

**ABP's Standard Terms and Conditions of Trade apply**

## CONDITIONS APPLICABLE TO CHARGES ON SHIPS

Vessels arriving from and departing to a port in the United Kingdom, Isle of Man and Channel Islands will be charged U.K. Tariff. Any other vessel will be charged International Tariff. When a vessel on cargo carrying voyages arrives from a U.K. port and departs to foreign port, or vice versa, dues shall be raised at the international rate.

Charges will be based on G.T. plus the measurement tonnage of cargoes carried on deck and in other unregistered spaces.

Vessels not remeasured in accordance with the International Convention on Tonnage Measurement of Ships 1969 will be charged on the formula issued by the Maritime Safety Committee of the International Maritime Organisation.

In the cases of vessels with non-signatory flags, ABP reserves the right to add a surcharge to the dues or rent payable, or to impose an assessment of Gross/Net Tonnage for the payment of such dues or rents for any vessel which has not been measured in accordance with the Convention.

Tugs will be charged 40% of G.T.

Vessels remaining in port in excess of 7 days shall be charged 75% of G.T. for a further 7 days and each succeeding period of 7 days or part thereof.

Inward bound vessels which subsequently depart the port with an outbound cargo will be charged 50% of dues.

Vessels in port undertaking sea trials will be charged 25% of ships dues.

# VESSEL DUES
