

## NOTICE TO MARINERS

### Works & Electrical Testing on Orwell Bridge

UTC  BST

Mariners are advised that Highways England will be undertaking routine maintenance on Orwell Bridge commencing 28<sup>th</sup> June 2021 until September 2021. This will involve work on the structure of the bridge around the pier tops.

Highways England will utilise debris netting to ensure the safety of river users and there will be no reduction to the bridge under clearance during these works. Additionally they have assessed the radiation hazard and there is no requirement to isolate vessel's radar equipment.

Therefore navigation of the River Orwell may continue as normal during this period.

In addition due to electrical testing, the centre span navigation lights (flashing yellow) may be offline during the following times:

- 21<sup>st</sup> – 25<sup>th</sup> June, from 09:00 to 15:30 BST
- 28<sup>th</sup> June – 3<sup>rd</sup> July, from 09:00 to 15:30 BST

The port and starboard navigation lights either side of the navigational channel at the bridge piers will not be affected by this work.
